

The Village Hall Needs Your Support!

Please **Sign This Poster** If Over the Last 12 Months You Have Taken Steps to Save Energy & Reduce CO2.

E.g. have you installed the energy efficient light bulbs we distributed last year, or used the eco-shopping bag? Have you tried to walk instead of driving somewhere? Have you used the washing line instead of the tumble dryer? Filled the kettle with only the amount you need? Re-cycled or re-used materials? Insulated your home? Installed renewables? Tell us!

Every footstep you take helps the village hall project demonstrate to grant providers that Highwood 'is taking action to reduce CO2' and deserves greater environmental funding.
